## a subLIME spring

Needless to say, spring is here and brings with it a refreshingly lighter palate for 2004. During the dreary months of winter, every fashion and interior design magazine debates what's going to lighten the mood come the warmer months. This year, bright is back! Bold and daring shades ranging from lime to celery mingle with vibrant swatches of lilac, violet, and even magenta, somewhat referencing the fanciful decade of the eighties. But don't start digging out the duds from the attic quite yet, as we're not lazy enough to simply slap in the beta tape of color and settle for re-runs from the fluorescent days. No, the script's been completely rewritten and paired with the hip, slick, and ever-popular black—proving once again, black goes with anything. You can't go a year without hearing that "black is back," but fortunately this year, it's not coming back alone. Expect to see this huge impact filter down from the fashion world to the home—literally—as the line between the two continues to fade. Accents of the bright will be gracing tables as well as the runway.

## a wonderful world of water...color

Explore the juxtaposition of organic environments and intricate designs in the patterns of Melinda Hackett's water paintings. We're holding an artist's reception on Friday, April 10, from 3 to 5 PM, where Melinda will be available to meet you and speak about her work. Often described as containing "families of forms," Melinda's pieces use elements of circles, swirls, flowers, and drips to create dynamic playgrounds and brilliant, jewel-like tones to intensify the relationships of the forms. Drinks and hors d'oeuvres will be served. The event is free and open to all. Come experience this wonderful world for yourself!
